Conquer Nepal, alliance with Ministry of Education, come to our school. Mr. Milan Dabhi came as a representative from Conquer Nepal to provide some information about 'IT'. It was interesting to listen about 'IT'. Mr. Milan took our 'IT' class for four days. But I was present for only two days. So, I didn't get much information from him.

According to him, After our SLC and +2 we need not to spend more

First of all I would like to thank the "Conquer Nepal" a non-governmental organization for giving me opportunity to know about information technology (IT). From this, I get chance to know about different aspects of Computer knowledge.

The main points I understand from this NCA are:-

- (i) Skill development
- (ii) we should take positive attitude.
- (iii) Development of knowledge
- (iv) process of computer formatting & Hacking.
- (v) security setting

First of all there was a class of IT (Information Technology). We were so grateful but after some days they teach us about computer, software, technology. It help us to know about the various software, operating system and used in computers. I was so joyful and i was also so happy. We also receive much information about the computer and other technology. Similarly we came to know that is the director of this programme is our Mr. Fisher P. D. Poudel and the project manager is Milan Rai. Our IT class was so enjoyable and it was so fun about taking knowledge from other about computer.

 About IT

As my favourite Subject is Computer, I took Computer Subjects in class 9 & 10. I got information about the information technology such as programmes like java, linux, microsoft etc. With this IT class, I have developed my further career. Moreover, I got knowledge about skill, our response and attitude etc.

The teacher who took this class was perfect for teaching. She taught us about our career development. I got to know many more things about the hardware, software and many more things about, how to make our PC runs effectively.

As a whole, I enjoyed this class very much. It has overall got good effects in development of our country.

At first, I would like to thanks to the organization to give us such class. Because, for the first time we all come to know about that, Conquer Nepal is working or giving class for the class 8, 9 & 10. About the importance of the IT which is importance of our life. In 2<sup>nd</sup> day, I came to know/read about the softwares & hardwares of computers & the hackers trick to hack the password & way of getting rid of them. We learned about leadership of for our life.

In 3<sup>rd</sup> day we came to know about the quality of leadership.  
 Thanks for giving such class.

to encourage us in various field. I like this program very much Thank You Hi-Ha-Ha.

I have understand the meaning of Information technology.

From the help of IT we can Maintain our computer system ourselves.

We should think always positive.

From this three days we can know how to maintain our computer by this programme. We can have our knowledge about uses of computer.

If we can learn and be member of Conquer Nepal then we can learn to maintain computer by the help of this program.

I like the teaching style of Rubi Mam.

From I.T I have learned following things:

- 1) I.T. have taught me that only book knowledge is not enough in life. Extra knowledge is also needed. To achieve success in life we have to be a member of I.T. as it helps us to live a happy life.
- 2) IT also taught us about the various parts of the computers. I.T. taught us, if we have extra knowledge we can gain jobs easily. If we have computer education, we can create different computer programmes and software.
- 3) I.T. taught us how to maintain our attitude and personality positively. How we can think and keep our positive attitude. I.T. also taught how to keep our behaviour good.

- We should learn basic step of computer.  
We should be knowledgeable, skilled and active.  
While going to buy cooler fan we should not buy only fan for shopkeeper otherwise shopkeeper may give another fan.  
We should be active in listening, writing, reading creativity.  
It is so good to learn It. It is different than other.

My views of IT Class

The programs is very important in the life of students. Putting this in mind our school had conducted IT class in our school. One of teacher representing Conquer Nepal had come to our school to give us about different knowledges about Information Technology (IT). He told that it was very important in the student life. I was very much satisfied by his teaching method & ways of dealing with various things. It was a program for 4 days. I was very happy to learn about many courses of IT. He gave us knowledges of different rules & regulations & personal behaviour to be the best people. I like that it is

Name- Sushma Nepal

CLASS- 9

Parents name - Shiva Prasad Nepal

School - New Knowledge English School.

I am very happy to know about this. In three days I got many education about computer technology. we got some extra and basic knowledge from Conquer Nepal. we learn to make our carrier by this course. the teaching style was totally different and interesting too. without computer the world is darkness. The aim which is not being fulfilled can be fulfilled through out the computer technology.

This program helps us to develop our inner skill leadership, attitude and behaviour

Nepal conquer Nepal program I like  
I don't know about it. <sup>Myron sir</sup> make  
us creat. If we know about ~~comput~~  
computer then no need to go other  
country. people talk that ~~in~~ Nepal  
job oppurtiny. They want but  
In Nepal we have to put  
other country. If we know about  
some basis of computer we  
can get job here only.

Effectiveness of a program

1. Know how to secure our personal computer from malware viruses.
2. get IP address that is needed to be a hacker.
3. Know the scope of IT in the context of Nepal.
4. Know the importance of IT.
5. personality and leadership development.

Really, the program was very effective. Anyway, I got a lot of knowledge about an IT.

Parent's ph.no:- 9849263469  
Address:- Vatachen-3 Bkt.  
School's name:- Manakamana Eng. sec. school.

We learn about the parts of computer and its uses. Like motherboard, C.P.U, and other important parts.  
We knew that without having certificate of any academic institution we can't get opportunity of jobs in future. And, also we learn about physical appearance and inner appearance of the people. And attitudes should be always positive and we should think positively and logically about any things.

• We had gained a great knowledge and know the way to make our futures bright and we are very thankful to the Conquer Nepal.

• We had store a lots of knowledge on our mind about the computers which can change the path of our future.

If we are not able to progress in our study, the knowledge shared and given to us can make our future bright. They had given us the sunlight and water just like that which are needed to the flower to be very attractive and beautiful.

we again get some more point about our behaviour. in 4<sup>th</sup> day.

Moreover, this 'IT BOOT CAMP' provided us very very important knowledge for our bright and successful future. Once again, Our hearty thanks goes to our motivator Sabin Shrestha Sir and also to 'Conquer Nepal'.

We have learnt many things about Computer, monitor, CPU, keyboard, mouse etc. Milan sir taught us very nicely. We have learnt many things from him. For being a proper human we should have a good attitude, knowledge and skills.

We should make our attitude.

We should have a lot of knowledge. We should put General Operating System in the computer.

Being a doctor, engineer firstly, we should be a nice human.

Some points we gain from IT's man and sir are:

1. Being doctor, pilots, engineers only nothing. In fact of all we should be a good human.

2. We should improve our personality and always make our attitude positive.

3. If we are confused with us in our life we should ask to us for 5 times.

4. If we are good in personality people will not cheat us while buying or dealing business.

5. In computer which sir and teacher haven't taught us. IT gave us knowledge about it.

6. We all know about internet but not only that we should know about computer.

From my point of view, I think the programme conducted is very beneficial for young people. They can get more information to develop their careers and the importance of IT in their future careers. I also learned about many things about the parts of computer, and ways for its security. The programme also helped me to have positive attitude in adverse situation and to have a good personality. I believe these kinds of programmes must be conducted time to time in the schools.

Conquer Nepal is a social organization that is based with the motto "श्रीत एतौ I अस्मिन् एतौ एतौ एतौ". It is an organization that is running with the aim of saving the aim of the Nepalese child who are capable of being the burning candle of the developing country. With the impact of problems of Nepal such as poverty, unemployment, etc. it had named their programme 'श्रीत एतौ I अस्मिन् एतौ एतौ एतौ'. This project's name itself justified that it would prefer to save the country's future itself from the root of the nation. Throughout, the programme, of the 3 days time I have hopefully come to know that not only education we get from school plays a important role but also the external knowledge

From 14th of Ashar, our IT (Information Technology) class started. From this class we got lots of information which we haven't got from subject class. This NQO helps to reduce the unemployment from our country. We, students of A.D.A like thanks to Conquer Nepal for providing such information. We hope that many students of A.D.A get knowledge of manner, attitude and skills. From this class we can developed our personal attitude. At first we haven't got much information about 'IT' but from this class we got much more information about 'IT'. Our class is being taken by Mrs Rajani Parajuli. She was very polite to us she didn't show any negative attitude towards us.  
Thank You Conquer Nepal!!!

In my view the Conquer Nepal organization is one of the beneficial organization for all the students. In the first day the organization started to give us the children about career counselling and give us the knowledge about the importance of IT and global certification. In the second day the organization gave us the basic knowledge about the computer and helped us to keep our computer safe. In the 3rd day the organization gave us the knowledge of personality building. In my view the organization is non-profit motive and is ready to help the students for a better practical knowledge.

IT stand for information technol  
 ogy. This programmes is conduct  
 by education ministries. Teacher  
 says that computer is a part of  
 our body. We can learn many  
 things from this programme.  
 In first days, we can learn what  
 ware is the soul of our body al  
 ng with Hardware is the body. Simi  
 larly. In second days, we can  
 learn how to use and create as  
 information. Software are  
 different i.e. operating  
 system, LINUX, os, RED-HAT  
 etc. This programme helps  
 to save our pass words. we  
 can learn some things from  
 this IT programme.

Today -  
 I read the I know the IT (Infor  
 mation Technology) by Conquer Nepal  
 Projects. I learned that IT is one  
 of the study about Computer  
 today. I know the types of Software  
 System Software, Application Software  
 and are Software Hardware, Human  
 ware. The way of backing the Computer  
 there is needed the software also.  
 We learned about the types of Monitor,  
 Keyboard, Mouse. We are properly under  
 stand by the meaning of IT.

Paragon Nepal is a best program which try to increase the knowledge about different professional career & about the Information Technology. It helps to increase the optimistic of the people. On the first day, we get knowledge about the IT & importance of it. On the second day we learn about the computer & its importance. Similarly on third day we learn about the importance of being good human beings & to be a good citizen of the nation.

As this is a knowledgeable program but it must find a time to launch it.

Name: Sujan Gora  
 Class: 8  
 Parent's Name: Narayan Sundar Gora  
 Parent's Ph. no: 9812477441

 School's Name: Holy Garden English Secondary School.

The first day my class was a new teacher & different thing like computer part, how to protect computer. ~~we~~ ~~we~~ ~~we~~ The function of monitor, three part of computer we had study about function of RAM, and other part of CPU.

There are 3 type of Monitor.

① LCD ② CRT ③ LKT

The function of mouse are there are two types of mouse

① Mechanical  
 ② Optical.

Name: Rajiv Kaju

I gain a lot of knowledge from this classes. But our class wasn't able to complete. We have only gain knowledge for 2 days but we gain a lot of knowledge. I was unkonsum able these things but I know the value of computer study. I am really happy with milan rai and rakesh sitha sir and all the members who have taught a lot of knowledge. But I'm really disappointed with my school cause they only think that study is every thing. But I think so coz i'm also not at study at all. But I want to be a successful person. But milan sir have taught me that without talent also we can be a successful person in our life. Because of our exam we are ending our 1st period here. But I really want to join to this computer class. Conquer Nepal keep on rocks.

So, these three day we have learn alot from the Rajani Parajuli miss and Sujita Bajju miss. The main thing I like about Conquer Nepal is their aim of decreasing 60% of unemployment. The other thing I like and learn are:-  
 1. I have learn about the parts of computa which I have not known before.  
 2. I like about conquer Nepal is their aim and how they are trying to make their aim success.  
 3. I have many thing like Attitude, skill, knowledge, and how to develop our personality which are very important in our daily life. And lastly I want to thank both the teacher for wonderful time and for giving us so much knowledge.

### Knowledge

Knowledge is one kind of practicing or learning which we never forget in life.

### Positive / Negative

Positive is one concept which we take good knowledge. In this way we should think only positive.

### Negative

Negative is one concept which we take bad concept. In this concept we always think negative in mind.
